

Three Pieces. Nearly Any Shape.

Rectangular panels, square panels and rounded corners lock together with standard hardware a two-person crew already knows how to use — ceremony platforms, banquet risers and full production decks from the same three components.

THE COMPONENTS

Modular Stage Platforms

PROMAX PANEL · 4' × 8'

The Workhorse Module

Reinforced surface, sturdy framing and a 4' wood connector for easy expansion. Suited to concerts, ceremonies, school events and mobile installations.

- Integrated cross-bracing minimizes flex under load
- Folding legs lock into a secure socket

SPECIFICATIONS

Weight Capacity	6,600 lbs
Leg Material	Steel
Material	Plywood, 2-sided HPL
Stage Top	Industrial Extra-Grip
Stage Edge	Anodized Black Aluminum, E-Channel
Length × Width	8' × 4'
Height	21"
Weight	122 lbs

SHIPPING

Shipping L × W × H	97" × 50" × 4"
Shipping Weight	139.00 lbs

2-YEAR WARRANTY

PROMAX PANEL · 4' × 4'

The Compact Riser

Ideal for smaller event spaces, breakout platforms or step-up stages. Folds flat for compact storage and easy transport between venues.

- Built-in 4' wood connector for secure alignment
- Folds flat for storage and transport

SPECIFICATIONS

Weight Capacity	3,200 lbs
Leg Material	Steel
Material	Plywood, 2-sided HPL
Stage Top	Industrial Extra-Grip
Stage Edge	Anodized Black Aluminum, E-Channel

CORPORATE GENERAL SESSION · 24' x 16' DECK WITH SKIRTING

HOTEL BALLROOM PERFORMANCE · RAILED RISER WITH STEPS

BUILT TO PERFORM

Engineered Beneath the Surface

Reinforced Steel Frame

Integrated cross-bracing and center support rails keep every panel rigid under load, from performers to heavy equipment.

Double-Sided Laminate

High-pressure laminate over marine-grade plywood, finished on both faces to resist moisture and wear.

Anti-Slip Hex Surface

An industrial hex-pattern texture keeps footing secure for performers, crew and guests in any weather.

10–12 Minute Setup

Folding legs lock into a secure socket, so a standard platform goes from cases to stage-ready in minutes.
